

Healthy Homes: **Replacing Fossil Fuel Gases**

A free event to be held on **Saturday May 10, 2025 from 10am-1pm** at Congregational Church of San Mateo (CCSM), 225 Tilton Ave, San Mateo
(Sponsored by Peninsula Interfaith Climate Action & CCSM Environmental Justice Ministry)

- Did you know that the air circulating in your kitchen & throughout your home is some of the most polluted air you breathe due to burning & leakage of fossil fuel gas?

○ Come hear from environmental scientist **Professor Rob Jackson, Ph.D** of Stanford University, Doerr School of Sustainability discuss his work on measuring & reducing GHG emissions as outlined in his new book, *Into the Clear Blue Sky*.

- Learn about resources from **Peninsula Clean Energy** to help you in your effort to make your home both greener and healthier.
- Hear from a panel of local homeowners who will share their journeys to fully electrify their homes.
